

May 2016: Who Are FAVOR Canada?

The Directors of Faces and Voices of Recovery Canada would like to take a moment to clarify who we are and what we do.

FAVOR Canada is a national advocacy organization. We promote and advocate for change that expands the continuum of care to include recovery support systems for people who are in recovery. We believe that increasing awareness and access to education will support our community, and help people make the decision to enter into recovery, or maintain long-term recovery, easier. We are NOT affiliated with any particular pathway to recovery. Our members come from all walks of life, as well as all pathways of recovery. Our job as recovery advocates is not to support one pathway over another, but rather to support every individual in their personal journey.

There are as many pathways to recovery as there are people in recovery, and we choose to support them all. We are a “for the people, by the people” organization!

We are currently looking for volunteers join our team. We would like to have one representative from each province to help enlist more cities to host Recovery Day events. We are also looking for fundraising support, a business advisor/strategic planner and website support. If you are interested, please email lisa@facesandvoicesofrecovery.ca
